

## **Rise of Zeus Instructions**

### **Base Level**

You start the game inside the Base Level, where you can find a total of four doors. Each door leads to a new challenge of the gods. The first door is located just ahead down the stairs. With completion of each level, you will unlock the ability to proceed to the next Door.

### **Level 1 – Hera**

At the start of the level head right and make your way to the bottom. You'll find a peacock feather that grants you the ability to jump twice. With the new ability unlocked, return to the start of the level. You'll be able to jump on the platforms above you now. Follow the path to the top of the level and head right again until you get to a door that leads you back to the base level. You can reach the entrance to the next stage now.

### **Level 2 - Poseidon**

#### Part 1: The Quest

To clear the first Part of the Poseidon Level you need to complete a rather straightforward quest by finding five Drachmas. After finding them you can open the bottom door with the lever in front of it. At the end of the path you will find a trident, which allows you to shoot Lightning, and another lever which opens the second highest door. After activating the next lever, the second lowest door will open and you can get to the last lever of the first Part. This will open the top Door and lead to Part 2 of the Level.

#### Part 2: Skylla

Part 2 consists of a bossfight with Skylla. You can defeat her with your newly gained shooting ability. After that you can activate the last lever at the top of the level and reach the door to get to the next level.

### **Level 3 - Hades**

At the start of the Level you need to head right and fight an enemy.

Once you did that successfully, you will soon realize, that there is no exit at the end. The Exit of this stage is hidden in the mid in a cave above. You need to jump on a ledge under the cave, to reach the cave. The Cave lead you tot he second stage oft the level. From here you simply need to head rightwards til you meet the Level Boss Cerberos. Once you killed him you are able to reach the Exit of the level.

#### **Level 4 – Cronos**

To complete the Level, follow the path to your right. Overcome the enemies and obstacles to lastly find the final Door which ends the Game.

Well done!
